

Labourers fish and seafood processing plant

Groupe MDMP was founded in 1987 by fishermen wishing to promote their resource on the market. Our first plant was established in Paspébiac, Gaspésie. Groupe MDMP has since experienced constant growth, especially in Eastern Quebec. We currently have 7 plants spread across Gaspésie and the North Shore. With such a wide geographical coverage, Groupe MDMP has a competitive advantage: access to a wide variety of marine species.

The candidate may perform some or all of the below functions based on production requirements and assignment in the plant.

- Unload fish and shellfish (the resource) from fishing vessels and transport them by hand or forklift truck to work area in fish processing plant;
- Reception of the resource at the plant;
- Condition produces for wrapping or freezing
- Cut fish into steaks and fillets
- Weigh the resource, record weight and pack in ice;
- Sort resource according to species, quality, weight and destination;
- Pack produces and transfer to shipping
- Prepare and transport pallets ready for shipment.
- Transport supplies and packaging materials throughout the plant and storage areas manually or with powered equipment
- Clean work areas and equipment;

Salary : 15,25\$/h
